Claim Information

Pursuant to Connecticut General Statute 38a-353, we have obtained the value of your vehicle by averaging the N.A.D.A. Official Used Car Guide and a market survey conducted by Mitchell International in association with J.D. Power and Associates. These evaluations consider the year, make, model, mileage, options, condition, wear, and prior damage to your vehicle. In addition, we consider Connecticut sales tax and any deductible you may have in reaching a settlement figure.

Included with this letter are the following documents:

- (1) a detailed copy of Progressive's calculation of your vehicle's constructive total loss value
- (2) a copy of the evaluation report provided to Progressive by Mitchell International

Please be advised that if you have not allowed us previously to move your vehicle to a storage free location, we will no longer be responsible for any storage fees incurred as of forty-eight (48) hours from the date of this letter. As we have discussed, you have the duty to mitigate your damages, and allowing us to move the vehicle is in no way an agreement to settle any portion of your claim.

Thank you for your immediate attention in this matter. I look forward to hearing from you shortly, and can be reached at <(860) 368-2643

If you do not agree with this valuation, you may contact the Division of Consumer Affairs within the Insurance Department. They can be reached by phone at 1-800-203-3447, by mail at PO Box 816, Hartford, CT 06142-0816 or on the worldwide web at www.state.ct.us/cid.

Claim Information

This letter is to confirm that on the above captioned date of loss, your 01 Mitsu Eclipse Spy was involved in an accident. This vehicle is identified by V.I.N 4A3AE35G11E004945.

The cost to repair the resulting damages was greater than the vehicle value pursuant to Connecticut General Statute 38a-353. Therefore, the vehicle was determined to be a total loss. Settlement was offered, and your payment was issued on January 07, 2011. As you did not retain the salvaged vehicle, you were no longer the owner of the above-mentioned vehicle as of January 07, 2011.

I hope this information will suffice for your needs in addressing the property tax bill you have received. If you need additional information or assistance, please do not hesitate to contact me

Vehicle Valuation Methodology Explanation

WorkCenter Total Loss was built through a joint partnership between J.D. Power and Associates vehicle valuation division Power Information Network (P.I.N.) and Mitchell International, a leading provider of claims processing solutions to private passenger insurers.

WorkCenter Total Loss produces accurate and easy-to-understand vehicle valuations via this five step process:

Step 1 - Locate Comparable Vehicles

Locate vehicles similar to the loss vehicle in the same market area. WorkCenter Total Loss finds these vehicles in AutoTrader.com, Cars.com, and directly from dealerships.

Step 2 - Adjust Comparable Vehicles

Make adjustments to the prices of the comparable vehicles. The comparable vehicles are identical to the loss vehicle except where adjustments are itemized. There are several types of comparable vehicle adjustments

- Projected Sold Adjustment - an adjustment to reflect consumer purchasing behavior (negotiating a different price than the listed price).
- Vehicle Configuration Adjustment- an adjustment for differences in configuration between the comparable vehicle and the loss vehicle (e.g. differences in trim).
- Mileage Adjustment - an adjustment for differences in mileage between the comparable vehicle and the loss vehicle.
- Equipment- adjustments for differences in equipment between the comparable vehicle (e.g. equipment packages and options) and the loss vehicle.

Step 3 - Calculate Base Vehicle Value

The base vehicle value is calculated by averaging the adjusted prices of the comparable vehicles.

Step 4 - Calculate Loss Vehicle Adjustments

There are four types of loss vehicle adjustments:

- Condition Adjustment:
Adjustments to account for the condition of the loss vehicle prior to the loss.
- Prior Damage Adjustment:
Adjustments to account for any prior damage present on the loss vehicle prior to the loss.
- After Market Part Adjustment:
Adjustments to account for any after market parts present on the loss vehicle prior to the loss.
- Refurbishment Adjustment:
Adjustments to account for any refurbishment performed on the loss vehicle prior to the loss.

Step 5 - Calculate the Market Value

The Market Value is calculated by applying the loss vehicle adjustments to the base value.

Condition Adjustment

-\$297.31

Overall Condition	2.73 Good	Typical Vehicle Condition Score 3.00 Good
INTERIOR		
SEATS	2 Fair	LEATHER WEAR AND EXTENSIVE PERM CREASES
DOORS/INTERIOR PANELS	2 Fair	REAR TRIM PANELS PAINT PEELING

REPRESENTATIVE VEHICLES

1996 Ford Explorer XLT 4WD 4D Wagon

The Autosource database contains inspected dealer inventories, dealer advertisements, phone verified vehicles, and private party advertisements from thousands of sources including automotive publications, newspapers and Web sites such as Autotrader.com* and cars.com. Autosource uses vehicles comparable in year, make and model within the specified market area, expanding as necessary, to determine the loss vehicle's local market value. This valuation includes a representative sample of the vehicles used to calculate the typical starting price.

The market search originated from Zip Code 064503505, as determined by the vehicle owner's principally garaged area. Autosource located 39, 1996 Ford Explorer vehicles which were used to determine the typical vehicle price. Adjustments have been made to the comparable vehicles for value differences in edition, doors and body style as indicated in the "Veh Adj" field. The sum of the 39 comparable vehicles is \$89,123 for an average price of \$2,285.

The asking or actual sale price is displayed for each vehicle. If a vehicle has been sold, the sold price is displayed with an (S) indicator. The selling price may be substantially less than the asking price. In the case of this 1996 Ford Explorer, the difference between the asking price and selling price is generally 13%. This selling price adjustment has been applied to the typical price. Additional adjustments have been made to the typical vehicle price taking into consideration the loss vehicle's mileage, equipment and condition. All adjustments are vehicle specific and reflect driving habits and condition for the vehicle's market. A mileage adjustment of 1.00 cents per mile/kilometer has been applied.

Taking into consideration the vehicle specifics, the fair market value is \$2,702.
